

Basic Mobile Trading Security Tips

User ID

Face ID

Touch ID

1 Only download our share trading app, Public Invest eTrade via official app stores such as Google Play Store and Apple App Store.

2 Protect your device by ensuring your mobile device has a PIN, biometric authentication or strong password.

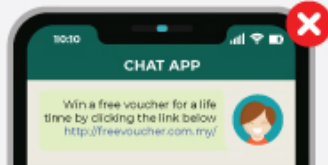

UPDATE NOW

3 Keep your devices and Public Invest eTrade installed with the latest updates.

4 Do not perform any online share trading while connected to a public Wi-Fi connection.

5 Think before you click. Avoid clicking on links sent to you via email, SMS or social media messaging.

6 Do not jailbreak or root your mobile devices.

7 Install mobile antivirus software for enhanced security.

8 Always log out from Public Invest eTrade once your session is done.
